TECHNICAL SKILLS

BACKEND

Java Kotlin .NET (C#)

Python

FRONTEND

Angular JavaScript

TypeScript HTML5 CSS3

Bootstrap

DATABASE & DATA

MySQL H2

R (Data Analysis)

DEVOPS & TOOLS

Git GitHub

LANGUAGES

English INTERMEDIATE

Spanish ADVANCED

CORE STRENGTHS

Problem Solving

Identifying and correcting failures in systems and IT infrastructure.

Communication & Teamwork

Direct end-user support and collaboration across multidisciplinary teams.

PROFESSIONAL SUMMARY

Full Stack Developer with a degree in Computer Science, backed by a solid technical foundation built through web projects and hands-on experience in IT support and infrastructure. Specialized in building systems with Java and Angular, with complementary knowledge of .NET and Kotlin. Experienced in solving complex problems and supporting end users, bringing a holistic view of system stability and usability. Looking to contribute to the development of scalable, innovative solutions.

PROFESSIONAL EXPERIENCE

IT Technician II — Panacopy

04/2024 — 06/2026

Responsible for monitoring and supporting complex printing systems, ensuring high availability and performance. Worked on optimizing and updating control spreadsheets, helping reduce technical response time. Resolved user support tickets, focusing on root-cause identification to prevent recurrence and improve operational efficiency.

Technical Support Intern — Soul Telecom

08/2022 — 10/2023

Provided phone-based customer service and remote support. Configured routers and local networks. Maintained technical tracking spreadsheets.

EDUCATION

B.Sc. in Computer Science

UDF Centro Universitário · 2022 — 2026

- Academic distinction in web development and database architecture.
- Built integrated systems using Java (backend), Angular (frontend), and Git for version control, applying three-tier architecture principles.
